UNIVERSAL

GRACEYS

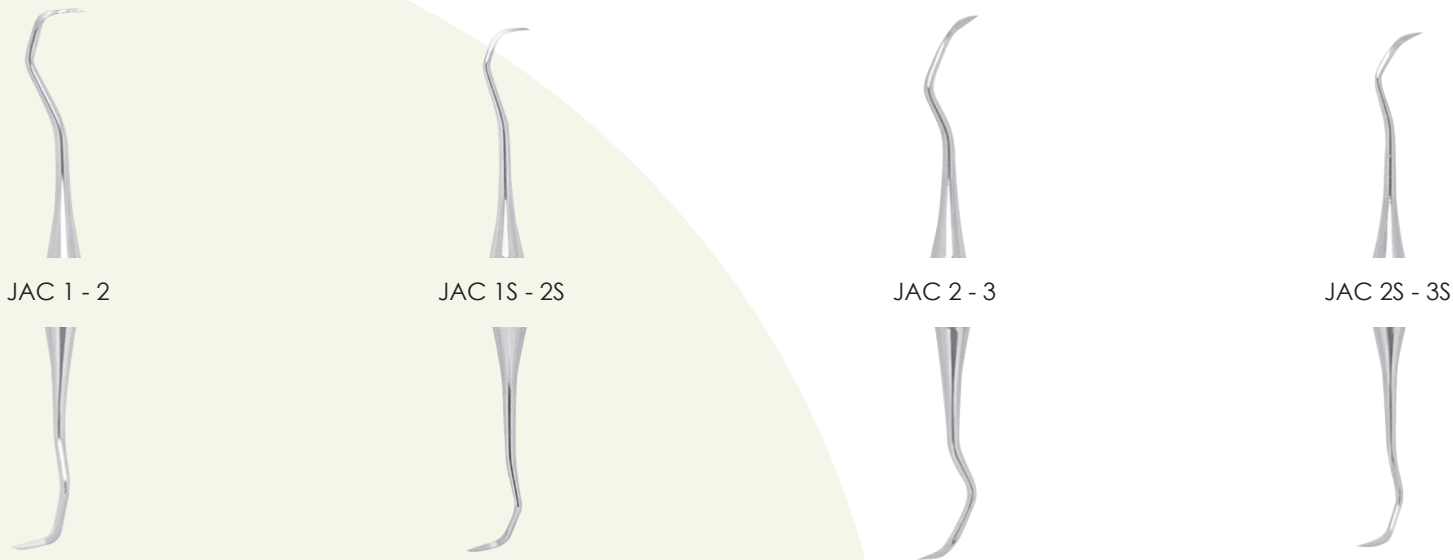

Gracey Style Offerings:

- Standard** - For removal of fine-moderate calculus
- Optimal for pockets 4mm and less
 - Greater tactile sensitivity & flexibility than rigid curettes
- Rigid** - For removal of heavy calculus
- Less flexible
 - Thicker shank
- After Five** - Lower terminal shank extended 3mm
- Optimal for pocket depths greater than 4mm
 - Blade is 10% thinner to allow for insertion with less tissue distention
 - Provides improved access to root surfaces
- Mini Five** - Ultra slender blades, 50% thinner
- Reduces tissue distention
 - Eases subgingival insertion
 - Elongated terminal shank for access to pockets & root surfaces greater than 4mm.

THE
SHARPENATOR
Taking Scaling to **New Heights**

- Efficiently sharpens instruments without the need of two stones
- Coarse on one side and medium on the other
- The coarse side quickly re-shapes your blade while the medium side delivers a precision edge
- Made from a synthetic material, the stone is autoclavable, non-loading, requiring no oil
- Perfect for chair-side use
- Takes up no counter space

The Sharpenator Kit
Includes one of each:
Medium (white)/ Coarse (pink)
Sharpenator Stone, Ergonomic Test
Stick, Sharpenator Chair-side Disposable
Sharpening Guide

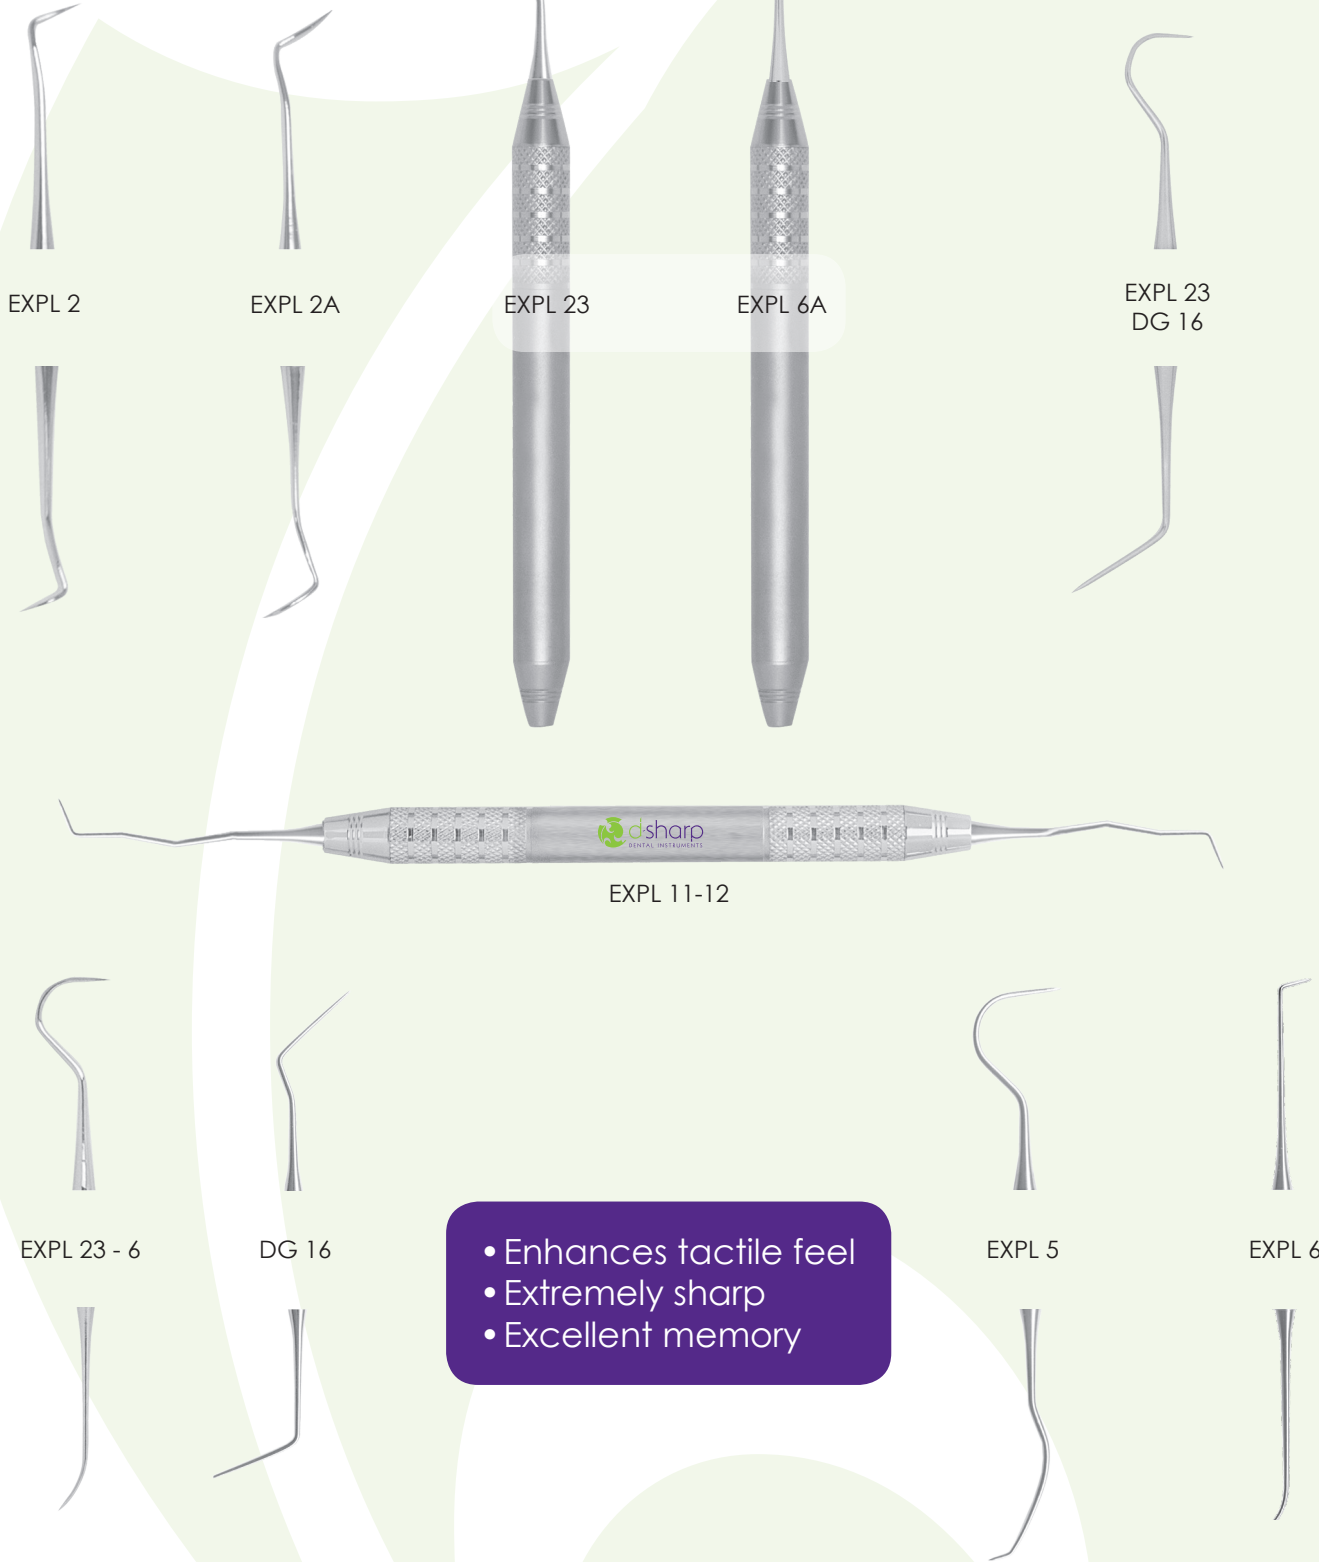

Aluminum oxide stones are the most popular sharpening stones in dental schools across the nation. The most preferred stone is the Edgемate™ II which offers both coarse and medium sides. All Edgемate™ sharpening stones are easy to care for and do not require any lubrication (including water).

Three grits available:
Fine
Medium
Coarse
Size: 3" x 1" x 1/4"

Coarse on one side and medium on the other. The coarse side quickly re-shapes your blade while the medium side provides a precision edge.
Size: 4" x 1" x 1/2"

Medium grit stone provides a precision edge every time.
Size: 4" x 1" x 1/2"

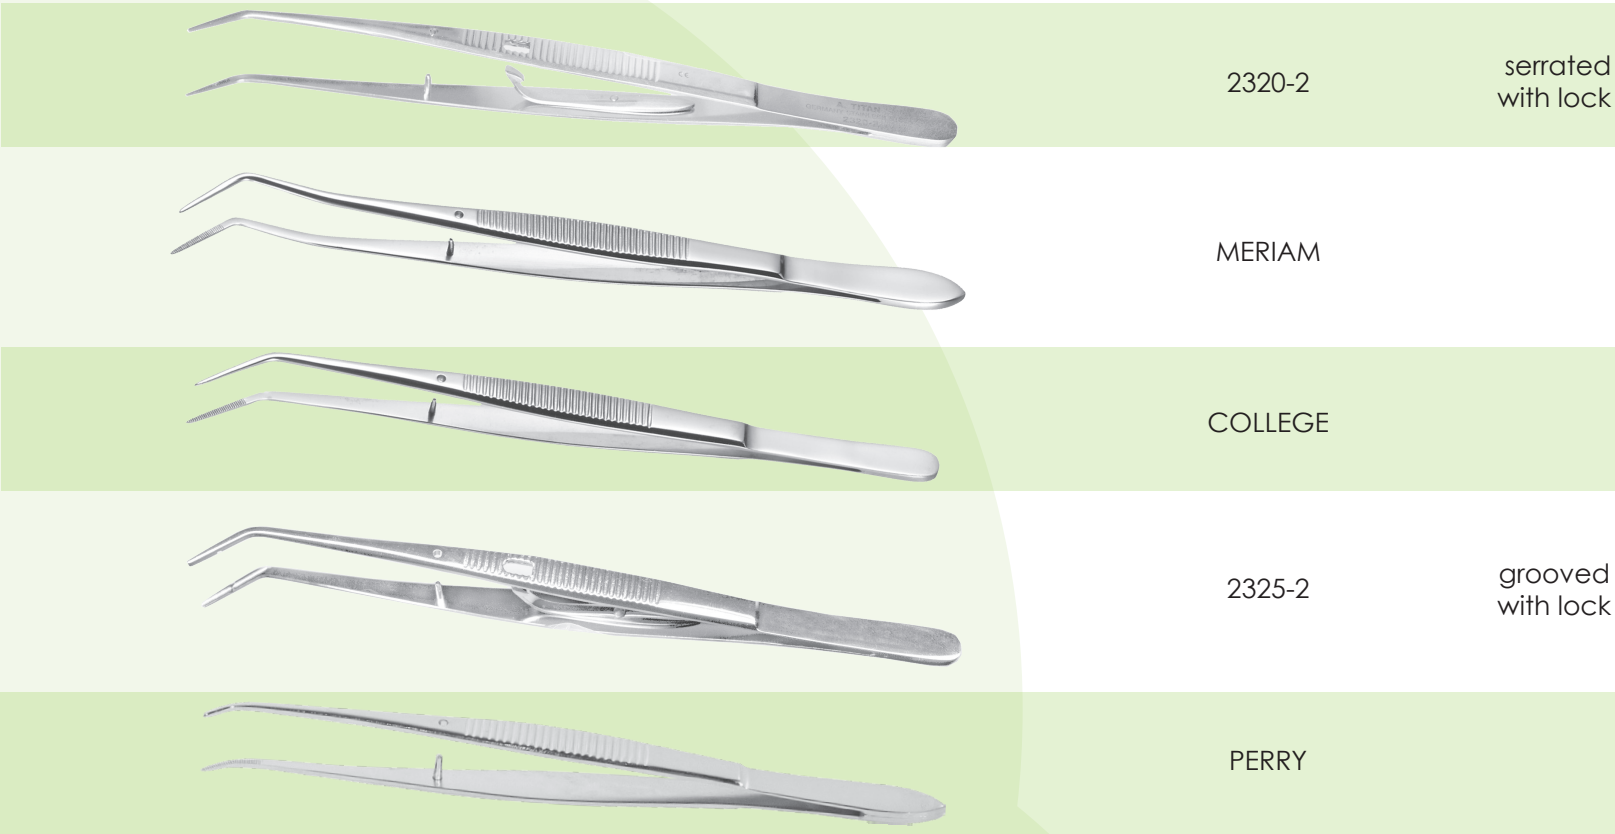

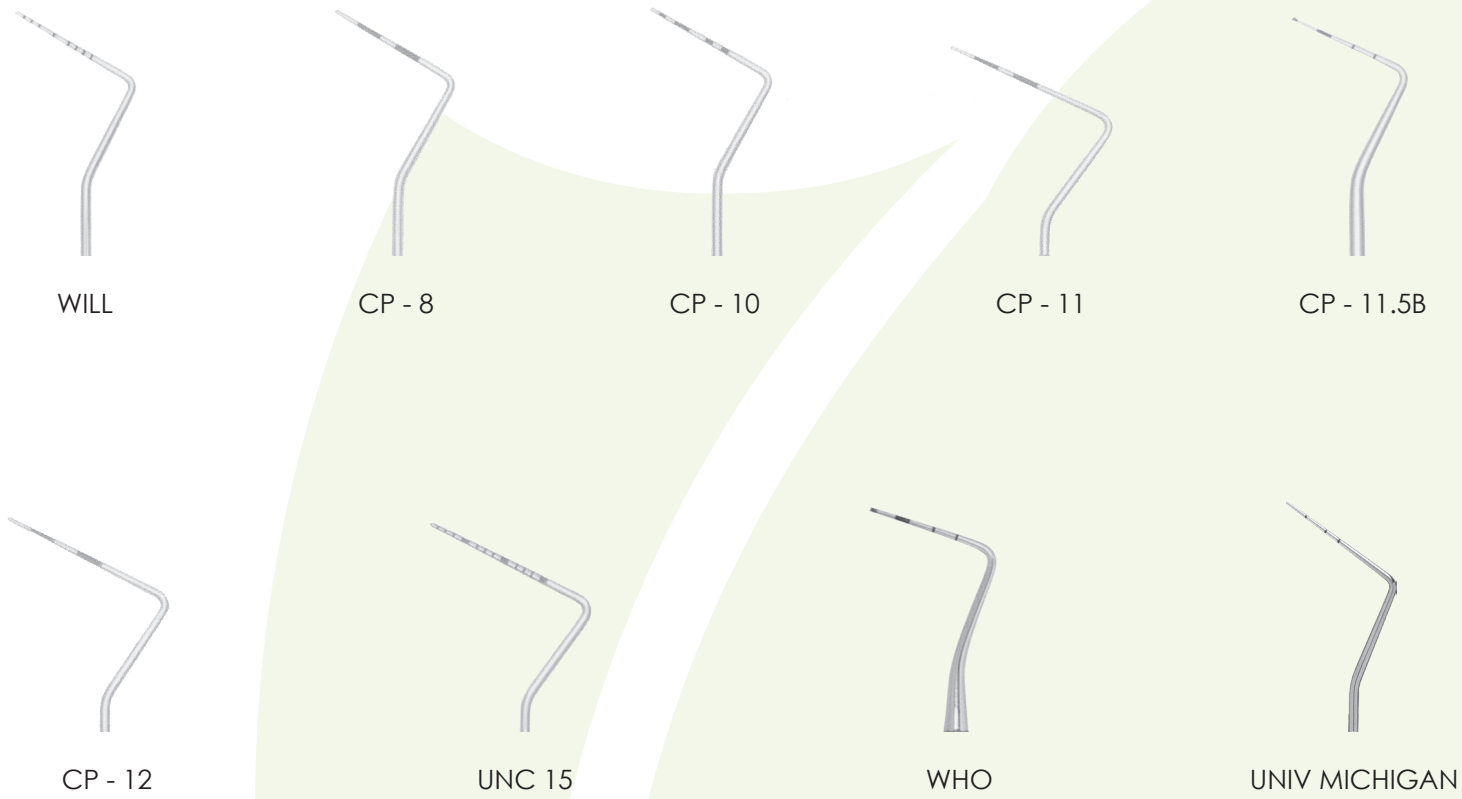

- Enhances tactile feel
- Extremely sharp
- Excellent memory

Custom inserts are made for all sterilization cassettes to hold instruments securely and maximize sterilization.

Just one hour away from a brighter, healthier smile

Congratulations!

You are one step closer to getting the healthier and happier looking smile you deserve.

Introducing the BLANCA Tooth Whitening System designed for people with an active life style who want quick, successful whitening results. Our convenient tooth whitening components were developed with you in mind, for simply whiter teeth! Try one of our products today and see why so many people are enjoying brighter, healthier smiles in a fraction of the time.

Professional Strength Whitening

Our whitening light utilizes the most advanced LED light technology to give you brilliant, professional results.

- Achieve maximum whitening results with two 20 minute sessions
- Remove stains that have built up over time
- State of the art LED technology activates gel with no heat, no UV light, and no tooth dehydration
- Whiten your teeth 3 - 5 shades

Naturally White

Our gel is a proprietary blend of Hydrogen Peroxide and Carbamide Peroxide with a neutral PH that will accelerate whitening and not harm your enamel.

- Pre-filled whitening tray
- Foam absorption strips comfortably fit against the upper and lower teeth
- A fraction of the time and cost of other in-office whitening systems and take home trays
- Vacuum-sealed packaging ensures freshness
- Features a special vent for improved breathing and comfort

Post-Whitening Paste

This take-home Whitening Paste reinforces whitening results each time you apply it to your teeth.

- A naturally derived paste to reduce sensitivity after whitening procedures
- Restores minerals lost during the bleaching process and every day wear
- Contains 8 grams of paste for 30 applications

BRIGHTEN YOUR TEETH *on the go*

Tooth Whitening Pen

This is the most convenient solution in teeth whitening. Brighten your teeth on-the-go without messy strips, trays or rinsing.

- Easy brush-on applicator pen
- Our fast action whitening formula contains 15% hydrogen peroxide. The most powerful and effective paint on whitening gel available.
- Instantly dissolves film from red wine and coffee
- The 4.5ml, sleek pocket-size "pen" gives you over 30 applications
- Pleasant Mint flavor enhances whitening experience and limits salivation

Blanca
Simply whiter teeth!
TOOTH WHITENING PEN

1. Brush & floss prior to application

2. Place lip guard in mouth

3. Twist pen to activate gel onto brush

4. Paint a thin layer to front surface of teeth

INSTRUMENT MAINTENANCE SOLUTIONS

D-Sharp offers unique instrument life extension programs, new instrument acquisition and management strategies, hands on continuing education for dental hygienists, and other operatory cost containment services to help you reduce operatory costs and increase practice revenue.

OIM Program: An instrument management program ensuring that each dental hygienist within your practice will always be using properly shaped and sharp instrumentation. Every 4 months receive 5 sets of instrumentation. Simply return the used sets, using the provided UPS label. Maintenance will be executed on the returned sets and in 4 months time the next shipment will arrive. For \$129/month (\$99/month for multiple operatories) OIM takes the hassle out of instrument management. Call to request information regarding program details and how to sign up.

VitaSharp is a sharpening service that will help extend the life of your instruments. With the use of the instruments, the edges become beveled and require re-contouring. Utilizing professional sharpening will extend the life of your instrument and allow you to work efficiently and effectively with instruments that perform like new for an extended period of time and help to provide optimal patient care. (VitaSharp pricing: \$3/per end, allow 3 weeks for service).

IntroCusp/Re-tipping Service: State of the art manufacturing process ensures brand new tips are inserted into the existing handles you have already purchased. This option offers a significant cost savings, up to 70%, when compared with a new purchase of scalers or curettes. (\$5.99/end, allow 3 weeks for service)

Trade In: By trading in old instruments for new, your practice will have a significant cost savings while decreasing waste and disposal from your practice. When instruments can be refurbished, D-Sharp will renew and donate to those in need. Send in old instrumentation you don't wish to use (min 12) and receive \$6 off each scaler or curette.

ORDERING

To place an order or inquire about D-Sharp instruments or services please call 877.837.4277. You may also email us at info@dsharp.ca or visit our website www.dsharp.ca

WARRANTY

All D-Sharp products are warranted to be free from defects in workmanship and materials. Any product which proves to be defective will be repaired or replaced free of charge.* Warranty doesn't apply to normal wear and tear and for use of instruments beyond limitations.

*Warranty doesn't cover shipping and handling
